

COMMONWEALTH CONSOLE TABLE

SKU: INSP-CO1000

Developed directly from West Indies inspirations, the Colonial-influenced furniture of the Commonwealth collection is revered for its simple yet sturdy elegance, modern lines, natural finishes and minimal, handcrafted hardware. Crafted of Ash veneers and Asian hardwoods, Commonwealth features the time-honored craftsmanship of three-way mortise and tenon joinery, like fitting pieces of a jigsaw puzzle together. Cove shaped molding, rounded legs, and hand hammered iron ring-pull hardware soften the overall effect. Commonwealth minimalist beauty and artisan finishes reflect the essence of the ocean and island life. The hand-brushed olive ash finishes include Burley Brown, which brings back memories of West Indies tobacco traders, and Champagne which reflects the luxury of contemporary beach life.
